1. Our Philosophy

The Torrensville Primary School OSHC aims to provide our community with a high quality child care. Our OSHC is an inclusive care environment where children feel safe, valued and supported. Children have opportunities to learn from meaningful activities with a focus on establishing positive relationships based on mutual respect. The service adopts the school values of Harmony, Respect and Achievement.

The Children

At Torrensville Primary School OSHC the children are paramount to our work. We aim to provide children with opportunities to foster their interests and well-being. We recognise that children are individually unique and have the right to feel safe, secure and valued. We believe that children should have opportunities to learn through play, recreation and their natural curiosity. We encourage children to have 'down time' through rest and relaxation.

The Educational Program

We recognise that children have different needs and levels of development therefore we provide experiences for children to engage in structured and free play activities. Children learn and refine skills at their own rate and in their own time. We provide an educational program based on the children's interests, by consulting with children regularly and planning together to ensure that the program is tailored to nurture their social, emotional, behavioral and cognitive needs. In conjunction to this we aim to provide an inclusive and diverse program, taking into account children's cultural, linguistic and family background.

Our Relationships

Relationships in our OSHC setting are based on openness and mutual respect. We provide a calm and positive environment where children and families are the focus of our work and interactions. Our relationships with children are meaningful. Educators' role-model positive behavior focusing on care, empathy and respect whilst guiding children's play.

The Environment

The physical environment at Torrensville Primary School OSHC is an extension of the "Home", designed to provide children with a sense of belonging, where they feel comfortable and safe. We provide a visually attractive environment filled with colour and furnished to inspire recreation. The environment is a safe and healthy place for all children, educators and families.

Our Practices

At Torrensville Primary School OSHC we collaborate and connect with a range of Children's Service bodies for guidance and expert knowledge. We believe that connecting and implementing practices in line with the Torrensville Primary School will provide children with a care environment that is predictable, nurturing and consistent with experiences at school.

Our Business

Torrensville Primary School OSHC aims to meet the needs of families within the community by providing a convenient and cost effective child care service to support families during Out of School Hours and School Holiday periods.

OUR PEDAGOGY

At TPS OSHC

We endeavor to provide a nurturing, **HOLISTIC ENVIRONMENT** where children feel free to explore their world and their self-identities. With an emphasis on the **ARTS, PHYSICAL AND EMOTIONAL HEALTH, CREATIVITY AND INVESTIGATION**, Educators aim to build children's self-esteem by scaffolding their learning and celebrating their achievements. Projects are not planned in advance; they emerge based on children's interests in a self-guided curriculum.

The Reggio Emilia Approach is a pedagogy described as student-centered and constructivist utilizing self-directed, experimental learning in a **RELATIONSHIP DRIVEN ENVIRONMENT**.

The Environment as the Third Teacher

'The environment is recognised for its potential to inspire'. An environment filled with natural light, order and beauty. Open spaces are free from clutter where every material is considered for its purpose and every corner is ever evolving to encourage children to delve deeper and deeper into their interest.

The space respects children as capable by providing them with authentic materials and tools. The space is cared for by the children and adults by working collaboratively. For example, children are encouraged to be involved in the Garden → Kitchen program where food is sourced from the garden and included in our afternoon tea menu.

The Adult as the Mentor and Guide

Our role as adults is to observe (our) children, listen to their questions and their stories, find what interests them and then provide them with opportunities to explore these interests further. This allows them to be flexible with their plans and us to be flexible in our preparation and teaching approaches.

ARTS AND CRAFTS

The ability to create is vital to the success of our children and the well-being of our world. TPS OSHC values the importance of the arts in our program.

Children have the opportunity to facilitate their own learning, develop their literacy and numeracy, and channel their creativity from open-ended craft materials. They contain recycled and natural materials, various mediums (pencils, textas, pastels, modelling clay, etc.), scissors, glue and tape. Students are also provided with a quiet space to complete homework. During Vacation Care and OSHC, planned activities are provided using more resources and Educators role model their own creative thinking. Educators scaffold children's learning to help them achieve their own goals.

PHYSICAL PLAY

When kids are playing, they are learning reflexes and movement control, developing fine and gross motor skills and increasing flexibility and balance skills.

Children's physical play at TPS OSHC includes skateboarding (supervised and risk assessed), skipping and hula hooping to music, organised group games, organised sporting games, nature play and playground fun. Children are also encouraged to get involved in 'Loose Parts Play' using their creativity and cognitive thinking to work together to create working structures and often include dramatic play.

We utilise the playground, oval, outside the OSHC room, garden and gym (which is great on a rainy or hot day). During Vacation Care, planned activities and excursions include obstacle courses, tree climbing, rock climbing, water activities and sport clinics.

VEGGIE AND NATIVE GARDEN

Developing a love of nature can impact the way children view the world around them and the food they eat. Children can learn to enjoy fresh foods and see the benefits they provide to our lives.

Children engage in sustainable garden practices including decision making, planting and maintenance. Children plant, harvest, cook and share the garden produce with their OSHC friends. Learning that eating well is important, what good food tastes like, and where it comes from. The sensory garden provides children with the opportunity to create potions and concoctions. Students can identify their favorite scents and tastes in the herb garden, harvesting to use in their sensory/role play. Finding snails and bugs along the way is also fun!

SENSORY PLAY

Sensory exploration is a child's way of examining, discovering, categorising and making sense of the world.

Sensory activities are embedded in our program. Experimenting with TOUCH, TASTE, SMELL, SIGHT AND SOUNDS. These activities include: Mud-play, Gloop, Kinetic Sand, Magnet Play, Clay, Playdough, Nature Play, painting, rolling toys, physical activities, musical activities, gardening and cooking.

MUSIC

Research has proven that when we listen to music we like, our brain releases Dopamine, a 'feel-good' neurotransmitter.

We encourage children to play and discover the music that they like by playing "DJ" at OSHC. Children will hop and dance while they kick the footy or play on the playground. We also have a range of different instruments that children can use including drums, guitars, keyboard, ukuleles, xylophones and percussion. These instruments provide students with the opportunity to experiment and use their creativity to make music, tunes and different sounds. At OSHC, we want children to discover the magic and calming sensation that can be experienced through music.

7.1 Programming

The Torrensville Primary School OSHC program is committed to nurturing and extending each child's cognitive, physical, emotional and intellectual development in a child-friendly, supportive and fun environment. The service offers a planned, flexible and balanced program, which will respond to children interests. Please refer to the Torrensville Primary School OSHC Pedagogy.

At Torrensville Primary School OSHC we have a holistic approach to our program. We see the OSHC as an extension of the home. We value the input of children and families when planning the OSHC and Vacation Care program. The children are encouraged to provide their ideas. As a group we vote on activities and encourage children to place their ideas on the white board each week. Our program during school holidays (vacation care) provides the opportunity to extend on children's learning and interest as we have a longer day to do so.

Torrensville Primary School OSHC takes part in a number of recreational activities. Photographs may be displayed in the centre, school newsletter, activity books and on our digital photo frame. Families and children's feedback is encouraged and welcomed in this book.

Learning stories are completed on One child software and displayed in service. Photographs assist us with future planning and also give children and families the opportunity to reflect on experiences, friendships and our day to day practice at Torrensville PS OSHC

7.2 Inclusion & Diversity

Torrensville Primary School OSHC offers a non-discriminatory approach to programming, which is inclusive of all children. Consideration is given to culture, ethnicity, language, gender and ability when planning the weekly program.

The program responds to children's individual needs, interests and requests by providing a range of activities for all children attending the service. The children's program offers a balance of activities, is flexible, and encourages child-initiated activities. Children and parents/caregivers input is valued when Educators are preparing the program.

Torrensville Primary School OSHC ensures that all children including those with disabilities and additional needs are able to participate in the planned activities.

Our OSHC goal for 2022 will be to prepare a reconciliation action plan (RAP) to further our cultural awareness of first nation's custodians.

If your child has a medical condition or disability please notify the OSHC team, we can assist with the process of completing the health care plan, risk management plan and communication plan.

This encourages relaxation, especially after a big day in the class room or excursion. Wii or computer time is programmed for children and is often used as a reward for the group.

7.5 Homework Club

Torrensville Primary School OSHC have set up "Homework Club" for children. The opportunity to joining homework club is offered twice a week between 3.30pm – 4pm depending on OSHC staffing. OSHC educators encourage children to do their homework while at homework club and this often offers children the opportunity to complete set tasks from class and make a start before getting home. Homework club is offered to children from year 2- year 6, educators will only encourage independent learners and readers will not be part of homework club.

7.6 10+ Club

Torrensville Primary School OSHC have set up a "10+ Club", this group of children consists of children who are 10years and older (ONLY). The aim of the 10+ club is to give our older cohort of children the opportunity to have more independence, become a responsible member of the school community and develop leadership skills within the OSHC group. The 10+ group are capable of many great things such as signing themselves into oshc, preparing their own afternoon tea on occasions, contributing sustainability in the school and they even get to go on 10+ excursions during vacation care. 10+ set expectations of peers and work together to help educators to ensure the OSHC is well maintained and fun.

8: Behavior Management

Torrensville Primary School OSHC is committed to providing a positive environment for the children who attend our service. We encourage, praise and promote positive behavior from children and educators model appropriate behavior towards children. When conflict arises we offer alternatives help children work out difficulties and to understand positive ways of responding to negativity. It is the behavior that is not acceptable, not the child.

It is necessary however at times to correct or discipline children's behavior. Torrensville Primary School OSHC uses a time-out system, where children are given time to reflect on their behavior before an educator has a discussion with them. During the talk children are asked to think of alternatives to their behavior and offer an apology if required. Educators often re direct behavior for some children before their behavior becomes a problem. Tools such as timers, specific programmed activities and choices are explained and offered to children daily.

If a child's behavior is dangerous to others, or is consistently an issue, children can be suspended from Torrensville Primary School OSHC for a set time (This will be discussed with school leadership). Families will be notified and asked to collect their child immediately

and a re-entry meeting will occur before the child is allowed back to OSHC. During the meeting a behavior management plan will be set up so the child understands the correct behavior that is expected from them.

9: Complaints & Grievances

1. BACKGROUND

An effective complaints and grievance management system confirms to educators, staff members, children, families and the community that complaints and grievances are taken seriously and investigated promptly and thoroughly. The principles of natural justice and procedural fairness will be applied when managing complaints. Our service has come to an agreement that if a complaint cannot be resolved by following the in-service and school based complaint and grievance procedures, highlighted in section 4 of this policy, then we advise that parents and guardians contact the DECD Parent Complaint Department, the DECD OSHC Department, the Education and Care Service Ombudsman, or the SA OSHC Regulations Authority.

Under the Education and Care Services National Law, the Approved Provider has a legal responsibility to notify the Regulatory Authority of certain matters within a stated time frame, of these matters is when a complaint is made in relation to either of the following:

- A complaint alleging that the safety, health or wellbeing of a child was or is being compromised.
- That the law has been breached.

Complaints of this nature are to be identified at a site as 'notifiable complaints' and the Approved Provider must inform the Regulatory Authority within 24 hours.

The following details are required in the notifiable complaint report:

1. Date complaint received
2. Complainant's name and contact details
3. Name of child/children to whom complaint relates (if relevant)
4. Copy of written complaint (or written summary) and any other relevant documentation (including correspondence, photographs, statements)
5. Steps taken/actions planned by the site in response to the complaint.

As our service operates on a school site, the School Principal or Leadership Nominee, as line manager of the OSHC Director, will be informed when there are complaints. Further to this, as our service is managed by the school's Governing Council the Nominated Supervisor, School Principal, OSHC Management Committee and Governing Council must follow the DECD Parent Complaints Policy which is outlined at <https://www.egcc.sa.edu.au/images/Forms/Policies/DECD-Parents-Concerns-and-Complaints-Procedure.pdf>; OR by contacting the DECD Parent Complaints Department on 1800 677 435.
